EDUCATION

Cal Poly Pomona

B.F.A. Visual Communication Design

GPA: 3.71

Expected May 2027

EXPERIENCE

UC Berkeley College of Environmental Design

Designer

Berkeley, CA

Jan 2025 – Jan 2026

- Designed a consistent data-visualization and diagram system that translated dense hydrological and sediment research into visual hierarchies legible to both domain experts and general audiences
- Partnered with researchers through weekly design reviews to define what each figure needed to communicate, aligning visual direction with research goals across iterative feedback cycles

PyxMagic, Inc.

Freelance UI/UX Designer

Santa Clara, CA

Mar 2024 – Sep 2024

- Built a scalable UI component and iconography system for a consumer-facing digital product, enabling the team to ship new screens and marketing assets without drifting from the brand
- Unified the visual identity across web, product UI, and brand assets, improving cross-touchpoint cohesion and design scalability for a fast-moving team

PROJECTS

CrosswordLeague.com (Multiplayer Crossword Game)

CrosswordLeague.com

- Designed and shipped a real-time multiplayer crossword platform focused on competitive gameplay and user engagement
- Built end-to-end UI/UX flows covering onboarding, matchmaking, gameplay, chat, and game state feedback
- Iterated on interaction design and information hierarchy to improve usability and clarity during gameplay
- Used AI-assisted development for rapid prototyping, turning interaction-design concepts into a fully working product to validate usability and game-state feedback with real players

Zoo Mobile App Concept

Link: Interactive Prototype

- Designed a mobile experience in Figma improving navigation, wayfinding, and visitor information access in a zoo environment
- Created user flows, wireframes, and high-fidelity UI designs focused on usability and clarity
- Prioritized accessibility and information hierarchy for mobile users in real-world environments

Apple Watch UI System

- Designed smartwatch interfaces optimized for glanceable interaction and minimal user input
- Explored typography, spacing, and hierarchy under extreme screen constraints

SKILLS & TOOLS

Design: UI/UX Design, Design Systems, User Research, Information Architecture, Wireframing, Prototyping
Tools: Adobe Creative Suite, Figma, Canva
